Senator Mapp takes the lead in the Times Dispatch straw vote for governor.

Senator Louis S. Epps, of Blackstone, a candidate for Corporation Commission before the Democratic primary, was in town Monday looking after his campaign. He came here on the invitation of the Charter Committee of the incorporators of the town of Appomattox. Senator Epps is Ex-mayor of his town and has had wide experience as a lawyer and public citizen. He has many friends here who will vote for him.

Tucker Never Tuck It

We suggest for the next Democratic nomination for the presidency Rep. Henry St. George Tucker of the Tenth Virginia district. As a campaign slogan we offer; "Tucker never tuck it. No Tucker ever did." We move that the nominations be closed and that Al Smith be chucked in the East river while William Gibbs McAdoo is buried in California. All those in favor signify by saying aye! But perhaps, before we put the question, we had best tell why Al and William are out of the running.

Mr. Tucker was a member of the congress which reently enacted a law increasing the salaries of its members. The first checks, since the increase went into effect, have been mailed out by the government. Most of the members presumably accepted them, or tuck them as the mountaineers say. Not so Mr. Tucker. No Tucker, he reasoned, could accept such a check. So, like his grandfather, who as a representative refused to accept increase in salary voted by the congress of which he was a member 108 years ago, Mr. Tucker made a check to the government for the difference between the old salary and the new, and sent it back to the treasury.

"Tucker never tuck it. No Tucker ever did." If there is any Democrat who can make a strong race against Calvin Coolidge, or whoever the Republicans may nominate, it is this man Tucker. Unless . . . Well, Mr. Tucker is a former dean of the law school of Washington and Lee University, and former dean of the school of jurisprudence, law, politics and diplomacy of George Washington University, and a former president of the American Bar Association. And it may be that the electorate has established that inexorable thing called a precedent against electing former presidents of the American Bar Association who come forth as candidates for president of the United States. John W. Davis was a former president of that little club and he had a nice slogan. "Better Days With Davis" But it was'nt as good as the one we have set down here for Mr. Tucker: "Tucker never tuck it. No Tucker ever did."

Are you ready for the question? Exchange.

Senator Mapp will open his campaign here Saturday, at 2 p.m for the governorship. He is a good speaker and a record crowd is expected to hear him.

G. WALTER MAPP, OF ACCOMAC, VA.
Candidate For Democratic Nomination For Governor. Primary August 4, 1925

HEAR HIM SPEAK!

Senator G. Walter Mapp

One of Virginia's foremost statesmen and candidate for governor will address the citizens of Appomattox and Buckingham counties from the Appomattox Court House porch.

Saturday, April 18th, 1925, 2 p. m.

Mr. Mapp has had long experience in the Senate of Virginia and knows the need of the State.

He was also one of the first advocates and a leader in the fight for Woman's Suffrage.

Every voter is invited to hear him. An especial invitation to ladies.

Campaign Com.

To the Democratic Voters of Virginia:

The voters of the State have a right and, I assume, naturally want to know a candidate's position on the questions now to the fore in Virginia. The day of 'platitudes and glittering generalities" has passed. Virginians are at last turning their eyes from the glories of our great Past, save as an inspiration, to the practical things of the Present—to the promise of a splendid Future.

My record in the Senate for twelve years must speak for itself.

On the outstanding questions now confronting Virginia, and with which the next Governor will have directly to deal, I have issued four platform announcements, very generally published throughout the State. These questions will later, through the press and on the stump, be dealt with in detail. To the end that my attitude may generally be known in advance to the voters of the State, I here summarize them as follows:

A. I am opposed to:

1. The proposed Federal Child Labor Amendment.

2. The control of Public Utilities wholly within corporate limits, by the Corporation Commission.

3. The present Fee System method of payment of officers. Note: In 1922, the last year for which complete returns are available. 259 fee officers in Virginia received $2,054,000.00. If citizens in any given County are desirous of knowing what their local officials are receiving for the discharge of their official duties, and will write me, giving the name of the County, the office and the officer, I shall be glad to furnish the information.

4. Our existing unequal and inequitable Tax system.

B. I am in favor of:

1. A full and complete revision of our Tax system, and the creation of a Full Time Equalization and Reduction Board. The repeal of tax on Bank Deposits, and of other laws driving home capital out of and preventing outside capital from coming into Virginia.

2. Building our roads with reasonable promptness by "Paying-as-we-go," if we can; by Bonds, if we must. Our present new 1925 revenues for road-building (as reported by the Highway Commissioner) will construct about 200 miles of new road (not all concrete) during the year of 1925. I am in favor of building our roads much faster than this.

3. Liberal support of our Public School System, our State-aided Colleges and other Institutions of learning and the University of Virginia; and the complete divorcing of our schools from politics.

4. State-aid for the development of the Port of Hampton Roads.

5. A firm and vigorous (but not fanatical) enforcement of our Prohibition laws and, indeed, of all laws.

6. Adequate support of our Eleemosynary Institutions and the Department of Public Welfare.

7. Continued strong support of the Department of Health, the Department of Agriculture and the Department of Labor.

8. Retention of the Budget system, to embrace, where possible, all appropriations; and covering all special and separate funds into the Treasury, for appropriation by the Legislature.

9. The simplification of our Government by abolishing unnecessary Departments and Offices, such as the Automobile Department and the office of the Motor Vehicle Commissioner, placing the duties of said office under the State Auditor and registering and licensing and collecting the gasoline tax (at the source of supply) through existing local officers; and likewise the consolidation of other kindred Bureaus under one general Department control.

10. The separation of the Commission of Fisheries and the Department of Game and Inland Fisheries.

11. The simplification of our Registration, Poll Tax and Election Laws and of our voting machinery; and the combining and holding of fewer elections.

12. The calling of a Constitutional Convention.

It is not of the utmost importance to me personally, certainly not to the State, that I shall be elected Governor. It is, however, of the utmost importance to both that, if elected, I shall not be hampered by concealments of convictions, by secret commitments, or by any uncertainty as to those State policies I shall undertake to pursue. Deeply as I cherish the confidence of my fellow Virginians, and much as I desire their votes, I do not want their support in ignorance of my attitude on public questions.

If elected, I shall go into office without obligation to any faction; actuated by no spirit of sectionalism; and unhampered by any preelection promise of appointments to office, high or low. It shall be my purpose to serve Virginia as a whole; and the advancement of the best interests of the masses of her people shall be my deep concern. To the administration of her affairs I shall call her highest and best available citizens—men and women.

If my course in the past, my convictions of the present, and my platform for the future, commend themselves to the people of Virginia, and they are willing to trust my leadership as Governor, I shall, under God's guidance, give to the service of the State the best that is in me during my term in office.

Very sincerely yours,
G. WALTER MAPP.

Permanent roads are a good investment —not an expense

An Extra Gasoline Tax of from 6 to 20 Cents Per Gallon

Your gasoline bills run into real money.

But have you ever stopped to figure how much of this is in the form of an incredibly high gasoline tax?

Let's see what happens when you leave the Concrete Highway and take to a gravel or a dirt road.

Conclusive tests have proved that a gallon of gasoline will carry you only two thirds as far on a gravel road as on a Concrete Road. On a dirt road a gallon of gasoline will carry you only half as far as on Concrete.

With gasoline at twenty cents a gallon, you would thus pay a gasoline tax of more than 6 cents per gallon on the gravel road and 20 cents a gallon on the dirt road.

These are figures you can't get away from. You can prove them yourself.

And remember that every time you travel on either a dirt or a gravel road you also increase wear and tear on tires and run up your general repair bills.

Why continue to pay these high taxes and get nothing in return but the discomfort and inconvenience of unpaved roads and streets?

Let your local officials know you want an adequate system of Concrete Roads and Streets. They are just as willing to build them as you are anxious to get them.

But they must have your support.
